## CURRENT POSITION

Master student (M2) + PhD grant beneficiary (ICBMS – UCBL)

## PUBLICATIONS

“Expedient access to Type II Kinase inhibitor Chemotypes by Microwave-assisted Suzuki coupling”. L. Destro, R. Van Melsen, A. Terzi, M. Genitoni, A. Gobbi, A. Zambon. – Revised manuscript (minor revisions) submitted to *Applied Biosciences* -April 29<sup>th</sup> 2022

“Modulation of physicochemical properties of Chrysotile fibers by functionalization with organosilanes”. A. Zambon, S. Caliandro, D. Di Giuseppe, V. Scognamiglio, A. Gualtieri, G. Lusvardi. -To be submitted to *Applied Sciences*

## RESEARCH EXPERIENCE

April 2022 - August 2022

### Erasmus + trainee (medicinal chemistry)

ICBMS – Lyon

- Main research focus: development of small molecules for kinase inhibition.

May 2021 - July 2021

### Research intern

University of Modena and Reggio Emilia - UNIMORE

- Main research focus: experimental studies on modified asbestos fibers; Synthesis of kinase inhibitors

October 2019 - February 2020

### Research for BSc thesis

- Title “Synthesis and functionalization of asbestos fibers with organosilanes”

## EDUCATION

2020 – Today

### Enrolled in “Chemical Sciences” Master’s Degree program

University of Modena and Reggio Emilia - UNIMORE

2020

### Bachelor’s Degree in Chemistry

University of Modena and Reggio Emilia - UNIMORE

2016

### High school graduation diploma

Liceo “Ariosto – Spallanzani” – Reggio Emilia

## TEACHING EXPERIENCE

- May 2021 **Lab assistant (inorganic chemistry)**  
University of Modena and Reggio Emilia - UNIMORE
- November 2020 - April 2021 **High school teacher – Chemistry**  
I.T.I.S. "I. Nobile" – Reggio Emilia
- October 2020 **Middle school teacher – Math and sciences**  
I.C. "Matteo Maria Boiardo" – Scandiano (RE)
- 2018 – Today **Private teacher – Math and sciences**

## OTHER

- 2018 – 2019 **Waiter**  
"Osteria del macellaio" – Reggio Emilia
- 2017 – 2018 **Actor/Assistant director**  
"Cinqueminuti" – cultural association

Communication skills

Good communication skills:

- I had the chance to improve my communication skills both during teaching and research work, especially about conveying scientific and chemical concepts. My diverse teaching experience pushed me to develop ways to better communicate with people of different age and background knowledge: from middle school kids to undergraduates.
- My previous research work was mainly conducted in a team-oriented approach, in which continuous feedback from other people was crucial. That allowed me to improve my teamworking skills and my awareness on task division and cooperative workflow.
- I experienced writing scientific publications, contributing to a research paper that is currently being evaluated for publication by my BSc's thesis supervisor.
- Fast-learner: I consider myself good at adapting to new environments and tasks. In all my past work and/or training experiences, I was able to perform tasks after a little training.
- I have a strong work ethic that makes me fully commit to any project I undertake.
